A DIGITAL HOME PRODUCT OF UNICATION

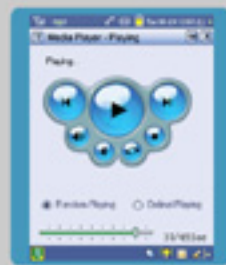

The new telephony

Voice over Internet Protocol, or VoIP, is the new telephony, makes possible a wide range of new digital features & low costs are making it a replacement for traditional phones. Make calls or send and receive messages using the WiFi network.

Genius tool of records

DVR, or Digital Voice Recorder enables you record voices in SD card, U-Disk or PDA itself for different purposes like playing whenever wherever you want, record to send voice messages, recording important lectures or meetings etc.

Play that hip music DJ !!!

Featuring Media Player in the form of a stereo music player, with Hi-Fi stereo speakers. You can use your PDA to download popular MP3 files and save them in the PDA body, U-Disk or SD-Card. PDA is COOL and HIP like never before.

Whole world in your hand

Icing on the cake !! Magpie comes with Opera Browser. Speed, Security, Simplicity. Opera received PC World's Best Browser Award in 2004. It lets you surf the Web faster, safer and easier.
